Engineer

This comprehensive course satisfies the requirements of the Health & Safety Executive (em2) and much more

The responsibility and management of asbestos is an essential and legal requirement and this course is aimed at those responsible for buildings and giving them the skills to manage the requirements for safety & compliance.

Who should attend ?

This is an excellent course for all personnel at Management or Supervisory level including those in Facilities Management, Commerce and Industry, Contractors, Public sector and Education.

The Risk

Serious prosecutions with significant fines occur regularly to organisations and particularly as Asbestos related diseases are reported to be rising. This course is designed to provide the skills to protect the workforce and others as well as your company.

Course includes:

The course includes: health risks and causes, assessing the risks (using algorithm systems) & ensuring compliance with the law so far as is reasonably practicable, identification of asbestos (with many images and numerous cases) and tests, when to decide to use a licensed contractor, limitations of non licensed work & notification, safe systems of work, contractual issue, types of surveys & competence, inspection requirements, management and emergency procedures etc.

You will be provided with comprehensive information and guidance in our Delegate Pack and we even provide sample forms to help set up your own systems. The course includes case studies and practical application of what work can be done with asbestos without a licence.

Course notes included, **Full Days Tuition** (typically 0900 to 1630)

A quality certificated course which concludes with a multi choice examination.

Candidates for this course should already be familiar with general risk assessment requirements

Quotations by BST are provided for the course to meet your specific requirements and will vary dependant on the number of candidates, distance, and venue etc.

Course content and duration may vary as a result of changes needed to comply with the requirements of legislation or necessary updates, but details were correct at the time of publication.
