

Permit to Work Lock out Tag out

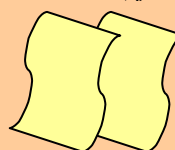

*A certificated Full day course - Attendance dates to meet YOUR needs
At YOUR place of work or at a venue of your choice*

**Delivered by a Tutor who is a
Chartered Practitioner with IOSH and an Incorporated Engineer
with experience on ATEX plants, COMAH sites and Construction.**

*This is an excellent course for management, contractors and operatives and includes the reasons for using permits the legal requirements of risk control and the application of Locking out and Tagging. The course assumes that all candidates can undertake a risk assessment. (if not then please **complete the one day risk assessment course in advance of this course**).*

Document control
systems included

Course includes :

Case references & law, lessons learnt, administering complex approval authority systems, ATEX & COMAH environments, typical areas in the use of permits, evaluation of controls in a high risk permit approval systems, recording, emergency options, hazard and risk control, workforce validation & approval, limitations & methodology of continuance & isolation records, What, where and when to lock off, and the use of tags and their purpose etc.

The methods to adopt depending on risk and plant size etc. Central management lock control systems, safety and isolation control systems, practical methods of locking pipe valves and electrics etc and demonstration. De-isolation, verification processes, practical exercises and assessment.

Course notes included, **Full days tuition** (typically 0900 to 1600)

(you can have as few as you like in the group or the max permitted or even 1:1 tuition)

This is a certificated course (plus passport card) and the final assessment is based on a practical project for lock out and isolation and risk assessment.

Course content and duration may vary as a result of changes needed to comply with the requirements of legislation or necessary updates, but details were correct at the time of publication.

Quotations by BST are provided for the course to meet your specific requirements and will vary dependant on the number of candidates, distance, and venue etc.
