

Slinging & Lifting

with hoists and gantry cranes

*A certificated Full day course
Attendance dates to meet YOUR
needs
at YOUR place of work or at a
venue of your choice*

**Delivered by a Tutor who is a Chartered
Practitioner with I.O.S.H. , an
Incorporated Engineer and Chartered
with the C.I.O.B**

This is an excellent course involving theory and practical hands on inspection of slings and provides a comprehensive understanding of how to plan slinging, complete slinging and evaluate hazards and risks.

The course includes:

An introduction/ overview to the Lifting Operations and Equipment Regulations, Chain slings, Web slings, Wire slings, equipment, how to fit slings, identification of defects in slings, sling configurations, hazards and risks, empirical guides, load assessment and planning, use of standard sling equipment.

Various kinds of powered hoists (and hand operated where required) including overhead gantry hoists, safety guidelines and safety checks. This course also includes a formal assessment.

Course notes included, **Full days tuition** (typically 0900 to 1630)

Certification of competence is dependant on the final assessment.

All successful candidates obtain a certificate and 'passport' card.

(you can have as few as you like in the group or the max permitted or even 1:1 tuition)

Course content and duration may vary as a result of changes needed to comply with the requirements of legislation or necessary updates, but details were correct at the time of publication.

Quotations by BST are provided for the course to meet your specific requirements and will vary dependant on the number of candidates, distance, and venue etc.
