

Electrical Duty Holder

Bespoke Safety Training & Consultancy Limited

*A certificated Full day course - Attendance dates to meet YOUR needs
at YOUR place of work or at a venue of your choice.*

**Delivered by a Tutor who is a Chartered Practitioner with IOSH
and a Mechanical Services Engineer and lectures on electrical testing.**

Why have a Duty Holder

*In process plants, factories and similar environments it is important to have a person responsible as the electrical duty holder to meet compliance with the **Electricity at Work Regulations**, and in particular **Regulation 3** and to ensure continued electrical safety to protect the staff [injury] and company [fines].*

The HSE policy statement on enforcement stated:
“...ensure that Duty Holders manage and control risks effectively...”

Who should attend ?

The member(s) of your staff should normally be qualified in electrical and be familiar with the current edition of the IET Regulations BS 7671: 2008. Ensure that you have enough persons trained on this course to cover shift work, holidays and sick

What is included.

This is a well developed interactive course with a variety of learning techniques in a management [of the duty] perspective for the duty holder such as statutory requirements, assessing limitations, risk assessment requirements, critical safety issues, machinery requirements, switch and control requirements, installation, maintenance, permits and lock out system operations, specific key management responsibilities for the duty holder, the impact of other relevant Regulations, static energy, underground supplies, overhead supplies, ATEX, COMAH, stored energy, and WEEE; numerous case studies and examples and including course notes.

Course content and duration may vary as a result of changes needed to comply with the requirements of legislation or necessary updates, but details were correct at the time of publication.

(you can have as few as you like in the group or the max permitted or even 1:1 tuition)

Quotations by BST are provided for the course to meet your specific requirements and will vary dependant on the number of candidates, distance, and venue etc.

Course notes included, **Full days tuition** (typically 0900 to 1600)
