

Ladder & Steps Inspection course

Bespoke Safety Training & Consultancy Limited

*A certificated Half day course
to qualify those who are to be
Ladder & Steps Inspectors
...at YOUR place of work
or at a venue of your choice*

Certification card
for qualified ladder
& steps inspector

*Laminated passport
(about credit card size)*

**Delivered by a Tutor who is a Chartered Practitioner with IOSH
and a Chartered Construction Manager and Engineer**

*Available to those who have already passed
the Working at Height course*

This course is designed for those who want to be a qualified **Ladder and Steps inspector** for portable equipment. It is essential that you have first attended and passed the Working at Height course with Bespoke Safety Training & Consultancy as all the legal aspects of working at height and ladder safety and procedures are covered on that course.

The Ladder and Steps inspectors course is directly focused on the components of the equipment, many likely defects and conditions and what action to take in varying situations. It will include quarantine action and also certain repairs that can be undertaken by the inspector and their limitations. The main aim is to comply with the law and keep the work force safe.

The course will include aluminium ladders, fibre glass ladders as well as timber ladders. There are several practical inspections that take place and at least one can be on your own equipment at work. All the documentation for dealing with assets and reports to comply with the legislation are included for your use, and details what should be actually recorded on the ladder including tagging. Intervals and risk assessing are included as well as a comprehensive guide only available to inspectors.

Why pay for others to inspect your ladders
when this can all be done 'in house' keeping your own complete records and systems.

Course notes included, **Half days tuition** (typically 0900 to 1230)

Assessment is based on practical inspections completed on the course and a multi choice examination.

(you can have as few as you like in the group or the max permitted or even 1:1 tuition)

Course content and duration may vary as a result of changes needed to comply with the requirements of legislation or necessary updates or improvements, but details were correct at the time of publication.

Quotations by BST are provided for the course to meet your specific requirements and will vary dependant on the number of candidates, distance, and venue etc.
