*Bespoke Safety Training & Consultancy Limited*

*IOSH approved and IOSH certificated Full day course  
This course has been developed by BST and is delivered only by BST  
Attendance dates to meet YOUR needs at YOUR place of work  
or at a venue of your choice.*

**Delivered by a Tutor who is a  
Chartered Practitioner with IOSH and an Incorporated Engineer**

**The course is underpinned with the  
SEMA Code of Practice**

This is a high quality well prepared course and is designed for those who are to be responsible for static racking at work and will be intending to undertake the weekly (min) mandatory inspections. Typically they will be (or working with) the PRRS (Person Responsible for Rack Safety). This course is certificated and includes assessment of completed inspection documents (provided) on the course and a multi choice examination on completion. This provides confirmation of their ability to understand the PRRS tasks and the requirements to **enable them to complete user inspections** using the skills and knowledge from the course

## **What's included**

The various types of racking systems, components and equipment, automation in systems, the legal requirements, defects and what to look for and how to assess damage properly to the SEMA requirements, effecting repairs, risks and risk controls, safe working during inspections, fork lift trucks and their interrelationship with the functionality of the racks and the impact of damage and accidents, pallets and how to reduce damage, preventative systems to reduce cost and defects, fire protection and much more. The course includes **full inspection documents to take away**.

Course notes included, **Full days tuition** (typically 0900 to 1630)

This is an IOSH certificated course with practical project assessment and multi choice test.
